Yearbook

The [Yearbook of the German Schiller Association](#) publishes contributions pertaining to German-language literature from the Enlightenment to the present, as well as an international bibliography for Schiller since 2011. It is edited by Prof. Dr. Dr. Alexander Honold, Prof. Dr. Christine Lubkoll, Prof. Dr. Steffen Martus and Prof. Dr. Sandra Richter. Works about Schiller's oeuvre are especially welcome, but they represent only a portion of the spectrum of works published in the journal. Additional emphases are the history of German studies, German-language literature since 1945 and the meaning of images for literary history. Additionally, discussions of current problems in literary studies and the literary field as well as important texts and documents that were previously unrealised are published on a regular basis here.

The deadline for submissions is regularly 1 February of the current year. Usually, the Yearbook is around 550 pages long and annually appears on 1 December. Manuscripts should be submitted as a Word document via e-mail or CD to Magdalena Schanz:
