This is the beta version of the new online catalog of the German Literature Archive. The old version of the catalog can still be used as an alternative for the time being.

Collections of the German Literature Archive Marbach

The collections of the German Literature Archive Marbach include literary estates, autographs, manuscripts, correspondences, printed works, AV media, portraits, and memorabilia of German-speaking authors, critics, translators, philosophers, philologists and other scholars. They also contain publishing and editorial archives from 1750 to the present, and documents on the history of their impact. The collection of literature from the 19th century to the present, including complete research literature, is a special purpose of the archive's library.

Kallías

The collections of the German Literature Archive Marbach are being made available for use in the online catalogue, Kallías. Users who are registered in the current calendar year have the option to place orders online.

Notes on our Holdings

A large part of our holdings have been catalogued and can be searched and ordered online. In addition, there are holdings – such as authors' libraries, estates, special collections or parts thereof – that are only indicated in the catalogue by inventory information; the individual titles are not catalogued. A systematic list of all holdings can be found under "Overview of the Holdings".
