

Marbach Weimar Wolfenbüttel Research Association

Since the reunification of Germany, the German Literature Archive Marbach, the [Klassik Stiftung Weimar](#), and the [Herzog August Library Wolfenbüttel](#) have expanded to dynamic and internationally networked centers for humanities research. As a response to recommendations of the [German Council of Science and the Humanities](#), they have founded a research association that has been sponsored by the [Federal Ministry of Education and Research](#) (BMBF) since 2012.

Inspired by the rich collections in the archives, libraries, and museums of the three institutions, the association's main interests are to provide a progressive impetus to the research work of the humanities and cultural studies and to further develop the approaches to data modeling and long-term storage in the area of the Digital Humanities. The research association should encourage the international community of young researchers within the framework of collections-related research programs and intensify the dialogue between and the collaboration with international partner institutions.
